**Giving hope, comfort, peace and sharing community with those we serve.**

Executive Director, IHCAM

## Gearing up for the fall

As I write this article, we have just slipped into fall and with it comes peoples busy schedules related to work and family. IHCAM is not exempt from this flurry of activity, and is planning and coordinating a few events that you will find in this newsletter, and getting back into its regular winter programming and meetings.

On August 8th & 9th, I had the opportunity to attend the **Global Leadership Summit** which I would highly recommend. The GLS brings some of the most up-to-date, high-impact leadership teaching available anywhere in the world and it is quite affordable. A second session is taking place in **Winkler on October 17th & 18th**. To register click [here](https://globalleadershipnetwork.ca/summit2019/winkler):

This summer, IHCAM's Communications Advisory Council worked with me to create a brochure for the provincial election that we entitled "*In Good Faith:*" It was utilized as a tool to create awareness, educate, and provide voters with questions that could be posed to potential candidates during the election. It highlighted the value that not-for-profit independently governed organizations who are faith based have in our health system and also promoted the importance of spiritual care in today's society. If you would like a copy of this brochure for your own information or to share with board members or employees, please send click on this link:

As soon as the Manitoba provincial election came to an end with a majority progressive conservative government, the Federal election was called. I invite you to read the articles on page 2 that highlight important platforms that need to be considered when you vote on October 21st.

# THIS FEDERAL ELECTION - A CALL TO CARE

## Six Million Seniors Are Calling on You to Care

Long-term care homes provide physical, medical, social, spiritual and emotional support to more than 200,000 seniors across Canada. Today seniors live longer and enjoy their homes longer, which means seniors are arriving at care homes much later in years. They are arriving with more complex health issues and more physically frail than ever before. The prevalence of multiple chronic conditions and cognitive impairment among residents has increased dramatically over the last decade. Canada's long-term care homes support people at this stage of their lives, which can include extensive or complete support with everyday activities such as getting dressed, getting in and out of bed, eating and going to the bathroom.

Unfortunately, long-term care is not seen as a priority by federal policy makers. While the Federal Government has embarked on a number of initiatives to support seniors, none of these initiatives support seniors living in long-term care.

Therefore, the Long Term and Continuing Care Association of Manitoba (LTCAM) is putting forward two key recommendations to address the aging crisis:

**Digital Health:** Supporting innovation in health care with evidence based decisions.

**Invest in seniors' housing**  
where care is provided by expanding federal infrastructure funding to include long-term care and commit to funding new long-term care residences.

Simply complete the email form found there, and LTCAM will send a letter to all party candidates letting them know that Six Million Seniors are calling on them to Care.

Citizens for Public Justice (CPJ) is a national organization of members inspired by faith to act for justice in Canadian public policy.

Based in Ottawa, CPJ is a Christian voice for social and environmental justice in Canadian public policy, focusing on poverty in Canada, ecological justice, and refugee rights. For more than 50 years, over 1500 justice-oriented Canadian Christians, along with dozens of churches, religious orders and other people of faith, have joined their voices as CPJ.

The 2019 federal election will present a fresh opportunity for people across Canada to shape the kind of country we want to be. As we prepare to cast our votes, it's essential we consider the collective interests of fellow citizens and non-citizens, as well as those beyond our nation's borders.

Coupled with the privilege of exercising our democratic rights is a duty to care for others. This is a responsibility particularly for people of faith, who are called to love those around us. CPJ views public justice as the "political dimension of loving our neighbour."

This year's electoral platforms include:

- **Democracy**
- **Poverty**
- **Climate Justice**
- **Refugee Rights**

## Screening tool helps Ascension in St. Louis identify outpatients with pressing spiritual care needs

St. Louis-based Ascension has made it a strategic priority to ensure that patients receiving care outside of the hospital walls get access to spiritual care.

To identify outpatients who may benefit from — and be receptive to — a spiritual care consult, the system is beginning to screen for unmet spiritual care needs in its broader patient intake assessments.

Ascension began this initiative last summer, by asking patients in its remote care monitoring program three screening questions to gauge their level of spiritual distress and referring those with pressing needs to remote chaplaincy services. Ascension currently is piloting the screening tool in some inpatient and ambulatory care settings as well. To read the complete article click on:

## Spiritual & Religious Care Awareness Week Oct 20-26

### Why do we celebrate Spiritual Care Workers?

Spiritual and Religious Care Providers are among the least well recognized caregivers in our communities. This is a week in which we reflect on the importance of those who provide Care of the Soul to people in distress and offer an opportunity to recognize the value of spiritual and religious care and to honour those who provide the care.

### What do they do?

- When you are scared, lonely, confused, angry or disillusioned, Spiritual and Religious Care Providers will listen, clarify & share your pain.
- A Spiritual & Religious Care Provider, or Chaplain, is a guide who offers spiritual direction in times of crisis, questions & wonderment.
- Your Spiritual & Religious Care Provider or Chaplain offers counselling and support, and when asked, will contact representatives from your own faith group to assist in your care and comfort.
- Your Spiritual & Religious Care Provider serves those of any faith, and those of no particular faith.

# Rest Haven readies for expansion

## CONSTRUCTION ON NEW 143-BED PCH BEGINS THIS FALL

Steinbach's Rest Haven will gain eighty three (83) more personal care home beds by late 2021.

HavenGroup CEO David Driedger indicates that their 35-year-old facility's new construction project will begin later this fall and continue for two years on a 143-bed PCH facility.

The new three-storey building, situated beside the current Rest Haven site, will eventually house that facility's 60 beds, plus space for an additional 83 individuals.

It is expected to reduce or eliminate the need for patients to await PCH placement from a hospital bed.

The current wait list, from paneling to placement, is about 18 months. The old PCH units will be renovated into space for the new facility's support staff.

Rest Haven received the green light for start of construction this month, and hopefully the new facility's opening will coincide with the HavenGroup's 75th anniversary.

### SHARE YOUR STORIES

As IHCAM continues to develop its communication strategy, we would like to collect inspirational stories from people who work in member facilities, from residents, clients, patients, or family members who have had positive experiences they would like to share. Although we will be hiring a few writers to seek out some stories and videos, your assistance would be greatly appreciated.

Some of these stories would be published in our newsletter or website, and perhaps used in social media to demonstrate the value faith-based organizations bring to people in Manitoba, in our communities, and healthcare system.

**IHCAM is currently seeking a social media freelancer to work on contract for the association. If you know of anyone interested in working flexible hours from home, please have them contact Julie Turenne-Maynard via email at [jtmaynard@cham.mb.ca](mailto:jtmaynard@cham.mb.ca).**

# HALLMARK ANNIVERSARIES

## *Ste. Rose General Hospital celebrates 80 years*

Preparations are well underway in Ste. Rose du Lac.

**On October 5, 2019** the community will celebrate its hospital, which was founded by the Grey Nuns 80 years ago, with its official opening on February 7th, 1939. The festivities will include a special tribute Mass, a historical video, a commemorative plaque and an exhibition of period hospital artifacts. For 80 years, residents have had access to medical treatment in their own community and their own hospital.

80

Michelle Quennelle, Executive Director of Ste. Rose General Hospital, the Winnipegosis & District Health Centre, the Dr. Gendreau Personal Care Home, and the Prévost Foundation, recalls the need that the hospital was addressing in the region: "In less than a year, the hospital saw more than 900 patients!" In addition to caring for the sick at the hospital, the Grey Nuns also trained others in healthcare as early as 1944. The hospital's nursing school was the first in Manitoba to graduate licensed practical nurses.

Today, even though the hospital has only 25 beds and has not been equipped for surgery since 1989, it remains an asset to the region. That is why the community will gather on October 5 to celebrate the institution's 80th anniversary. It will be a great celebration!

## **December 1, 2019 will mark 50 years of service to the community.**

The year 2019 marks Luther Home's 50 years of compassionate and caring service to our community. Luther Home is a not for profit, faith based organization located

in West Kildonan. Luther Home provides personal care home services, seniors affordable housing, adult day care services, home care services and refugee housing.

Several events have taken place throughout this year to celebrate its hallmark anniversary, including a wine & cheese reception on September 27th, 2019.

Fifty

**On Sunday, December 1st there will be a** special chapel service to mark 50 years to the day that Luther Home opened. This will also be the day to unveil a 50 year plaque to be placed at Luther Home.

*Caring for persons, the more able and the less able serving each other, is the rock upon which a good society is built. With a society that is more just and more loving, that provides greater creative opportunity for its people.*

*Congratulations to Luther Home and Ste. Rose Hospital for providing compassionate and caring service to your communities and the people you have served, and continue to serve now and into the future.*

# *Caring for People Living with Trauma*

**Wednesday - November 13th, 2019**

**St. Mark's Lutheran Church - 600 Cambridge Street, Winnipeg**

**Session 1: 8:30 AM to Noon**

**Session 2: 1:00 PM to 4:30 PM**

This introductory half-day workshop explores what trauma is, the principles of Trauma Informed Care and how to integrate a trauma-informed perspective into our everyday interactions. Included in the session are mindfulness practices and the opportunity for self reflection.

## **Facilitator**

**Nadia La Rosa  
Klinik Manitoba**

*Register Early! Each session is limited to 25 participants.*

Nadia La Rosa is the coordinator of the Manitoba Trauma Information & Education Centre at Klinik Community Health. She has been with Klinik for over 20 years, the majority of which were spent working with the Sexual Assault Crisis Program. Her background includes delivering direct services to and advocating on behalf of individuals and families affected by sexualized violence, coordinating special projects and raising awareness to promote effective responses to sexual assault in communities throughout Manitoba.

She is especially interested in the connection between trauma and our neurobiology, the significance of mindfulness in recovery and the importance of fostering relationships with individuals, communities and systems in a way that offers a more holistic understanding of and approach to healing.
